Prospects of the two local teams for the coming year have awakened considerable interest and a large attendance will undoubtedly usher in the season and be on hand to get a line on the players who are out to make their respective teams.

At this stage of the game the two teams unusually put up a fairly even game and what Saturday will develop in the way of a football game will be [illegible]. Both Coach Juneau and Coach Richards have been putting their [illegible] work every night and are getting them in shape for two short halves Saturday afternoon.

John Stenseger is another new man who is trying for the team. He weighs 132. Guy Jester, who weighs 17[illegible], is expected back in school this week, and will be out for a position back of the line.

## PFEISTER WON FOR OMAHA

### Colorado Springs Lost the Deciding Game.

### MANY COSTLY ERRORS

A GREAT DEMONSTRATION IN HONOR OF THE VICTORIOUS TEAM FOLLOWED THE CLOSE OF THE GAME.

Special to the Gazette.

Omaha, Sept. 20.—Some [illegible] thousand people saw Omaha defeat Colorado Springs today in a game which practically decides the race for the [illegible] championship. [illegible] Springs 1.

It was a scene unparalleled on the local grounds. Among the distinguished guests who enjoyed the afternoon at [illegible] manager of the St. Joe team, with his entire band; President Myrick, of the Des Moines club, and Thomas F. Burns, of Colorado Springs.

In the matter of hits Villeman and Pfeister broke practically even, but the former could do nothing when his team mates made seven errors during the game. Graham scored the only run for Colorado Springs in the last inning.

## TIGERS WILL PLAY MORMONS

### Game With Salt Lake Has Been Clinched.

### MAY TRAVEL TO COAST

POST SEASON DATE WILL BE ARRANGED FOR UTAH UNIVERSITY—UTAH AGGIES HAVE FIRST CALL WITH SALT LAKE.

Arrangements for the game between the Colorado college eleven and the University of Utah have been completed and the game will be played in Salt Lake [illegible] the Gazette last week. The date for the game has, however, not yet been set, but Manager Willis E. Hester announces that the game has been clinched. Utah will play here next year.

The Utah Agricultural college has the option between November 17 and Thanksgiving day with the University of Utah, and the date will not be set until its decision has been made. It is probable that a post-season game will be played.

The negotiations with Pamona college of Claremont, Calif., which were practically declared off, have been resumed and if a satisfactory answer is received to Manager Hester's letter, the western trip may be extended to include a visit to the Pacific coast and a game with the California team.

With the trip to Salt Lake settled and a possibility of one to California, Tiger stock will undoubtedly take a rise and more men will come out and work harder to make the first team with such additional prospects in view.

## NEWS WHEN IT HAPPENS

Nearly three weeks ago—or to be exact, on September 2—the Gazette announced that George Graham, of Colorado Springs, had been drafted by the Detroit club of the American league.

Two days later this paper stated that Congalton had been drafted by the same league and was claimed by Detroit; one week later, September 11, after the meeting of the baseball commission in Cincinnati, it was learned that Congalton had been secured by Washington, through a previous claim, and the fact was accordingly announced by the Gazette of that date.

Of course, in both cases the Gazette announcements were exclusive.

As late as yesterday, the evening paper, under a two-column head, published the news which appeared in the Gazette AT THE TIME IT HAPPENED.

## SEXTON STANDS BY HIS FIGURES

IN TELEGRAM TO GAZETTE LAST NIGHT HE PLACES OMAHA IN LEAD, SPRINGS AND DENVER TIED.

Appreciating the great interest taken in the closing week of the baseball season, and owing to the different opinions in the matter of the standing of the teams, the Gazette last night wired to President M. H. Sexton for the official standing of all the teams to date. [illegible] is up to midnight and is identical with the figures published in yesterday's Gazette.

The defeat of Colorado Springs yesterday by Omaha placed the latter team, according to the official figures, well in the lead and practically out of reach of the other teams. Colorado Springs and Denver are on even terms for second place.

FIGHTING GREEN STAMP CASES IN DENVER.

Denver, Sept. 20.—The green trading stamp litigation today reached the supreme court, where an application was made for a writ of prohibition to issue against Judge Mullins, of the district court, restraining him from hearing the habeas corpus cases of H. L. Lewis and [illegible] Winslow, which was to have come up in the west side court today. After taking the matter under consideration the supreme court ordered the lower court to proceed no further in the matter except to inquire as to its jurisdiction in the case. This order is in line with the custom followed by the supreme court in cases of this nature. In effect it leaves the habeas corpus procedure pending until the lower court can determine whether it has jurisdiction. The case was taken into the supreme court by the attorney general's office.

## WANTED TO SEE THE PRESIDENT

INSANE MAN WHO DECLARED HE HAD BEEN TO HEAVEN IN AN AUTOMOBILE ARRESTED AT OYSTER BAY.

Oyster Bay, Sept. 20.—A man who is regarded by the secret service officials and by the authorities of Oyster Bay as a dangerous crank was apprehended here today. He is J. E. Reeves, a medium-sized, roughly attired man, about [illegible] years of age. He was making his way to Sagamore Hill when he was arrested.

He told Officer Tyree, who apprehended him, that he wanted to see the president on important business. Believing from the man's manner that he was insane, Officer Tyree took him before Justice Franklin for examination.

To the justice, Reeves said that six years ago he died in a Jersey City hospital and went to heaven in an automobile. While there he received an important message for President Roosevelt, which he was directed to deliver personally.

He refused to say what was the nature of the message, as he declared he could communicate it to nobody but the president. He declared to the justice, however, that he had written a book on his experiences in heaven, which he desired to have published, as he was satisfied no one could be more out of it.

The president, he said, undoubtedly would join with him in securing a publication of the book and that was one reason why he wished to have a talk with him. Reeves, who talked as if he had enjoyed some educational advantages, said that he was a resident of Baltimore. He had in his pockets $[illegible] in cash and some unimportant papers, but no weapons.

Justice Franklin, after the examination, being convinced that the man was insane and very likely dangerous, deputized one of the secret service men to take him to Mineola, where a formal inquiry into his mental condition will be made.

[illegible] his sanity at the Nassau county jail in Mineola by two physicians and declared insane.

## M'CLELLAND MAY BE NEW YORK NOMINEE

Continued from Page 1.)

center about which most of the anti-[illegible] sentiments gathered.

An Open Fight.

As the hour approached midnight the questions apparently [illegible] they were at the outset of the convention—can the candidate be selected in conference for unanimous nomination in the convention? Will the nomination be made by actual choice on the convention floor between two or more candidates?

While the conferences were in progress in the rooms of the various leaders, an apparently spontaneous movement for Mayor McClelland of New York originated among a number of up-state delegates. About half past eleven 65 members of the delegations from Erie, Oneida, Onondaga and other counties in the vicinity met and appointed a committee of eight with [illegible] see Mr. Hill and Mr. Sheehan and urge that no candidate be put before the convention of whom it could be said he had been forced upon it by Mr. Hill. They said they had reference to no one candidate in particular but to several that have been named. As a candidate who could be put before the people as absolutely free, as they expressed it, from "Hill influence" they favored Mayor McClelland.

McCarren's Attitude.

The center of the gubernatorial problem at 10 o'clock tonight lay almost entirely in the attitude of Sen. McCarren, who was pressing with undiminished urgency the candidacy of Comptroller Grout, and who had succeeded in impressing upon a large number of delegates a belief in Mr. Grout's ultimate nomination. His followers said openly that his nomination was settled. Quite as marked as his support of Mr. Grout appeared Mr. McCarren's opposition to Mr. Shepard. It has been clear for many hours that strong influences were behind Mr. Shepard's candidacy, even though there had been no great showing of delegates in his behalf. It was hinted that Mr. Sheehan desired his nomination in the belief that it would be acceptable to Judge Parker.

A Preliminary Session.

The convention today had its preliminary session, heard an extended speech from William B. Hornblower of New York as temporary chairman in which the Republican national administration was drastically arraigned and Governor Odell severely criticised especially for his acceptance of the dual role of governor of the state and chairman of the Republican state committee; committees on permanent organization and resolutions were appointed and the convention took a recess until 11 o'clock tomorrow.

Seven Men Mentioned.

For the rest it had been a day of remitting conferences and of rumors of many kinds in which no less than seven men had been placed at the head of the speculative tickets:

Edward M. Grout, comptroller of Greater New York; Edward M. Shepard of Brooklyn; Assemblyman George M. Palmer of Schoharie county; Former Court Justice D. Cady Herrick of Albany; William B. Hornblower of New York; Mayor George B. McClelland of New York; former Secretary of War Daniel S. Lamont of New York.

The subject of the remainder of the ticket has been almost entirely eclipsed in the interest centered upon the governorship.

Here is the attitude of the most prominent leaders summed up by one of those who has been in close consultation with all of them [illegible].

Hill's Alleged Attitude.

Senator Hill is for the man who will unite the convention and bring success [illegible].

[illegible]

## DISSATISFIED WITH DOWIE'S NEW FREAKS.

Chicago, Sept. 20.—Dissatisfied with John Alexander Dowie's assumption of new dignities, 35 persons left Zion City tonight for their former homes in Washington and Oregon. The seceders departed saying that they objected to the robes worn by Dowie quite as much as to the title he had taken upon himself. The schism means that [illegible] followed the announcement by Dowie that he was Elijah. Dowie was not in Zion City at the time of the departure, having gone to his private home in Michigan.

[illegible] urging the acceptance of the principles formulated by the commission, as he will be in possession of the American and British notes the contentions of those governments will be before the court.

Russia's position has been authoritatively stated to the Associated Press as follows:

Russia does not desire to interfere with the United States legitimate commerce [illegible] to and must protect herself as far as possible against shipments which may aid the enemy in prosecuting the war.

JUDGE PARKER BELIEVES IN AN EARLY HARVEST.

Esopus, N. Y., Sept. 20.—Judge Parker today has been in close touch with [illegible] upon the state convention at Saratoga. Every few minutes messengers were to be seen coming from the telegraph office to the judge's house. The operator who handles Judge Parker's personal telegrams was busy most of the day, but in spite of the many messages the candidate found time to issue orders to his man concerning the harvesting of the crops.

There were no political callers at Rosemount today and the judge took a long horseback ride.

## SEES CRISIS FOR LABOR

Prof. Graham Taylor in an Article in The Commons Sees the Greatest Danger Within the Unions.

Are the powerful Employers' association and Citizens alliance now boldly threatening or openly fighting labor unions, the greatest menace to the power of organized labor? It would seem that an opposition concentrating its efforts upon disrupting the unions would be the greatest danger. A different and incisive view, however, is the recently published expression of Graham Taylor, director of the department of social science and arts of Chicago university and warden of Chicago commons. In the September number of The Commons his leading editorial recognizes the reaction from popular favor to bitter and even violent intolerance against unionism seen in the fury of the Colorado type of "Citizens alliances" and the formidable defensive and aggressive forces of the [illegible] employers associations. So far from considering these the greatest danger to the unions, he says:

"This alley of force and organization, so far from denying or ignoring the power of organized labor, is the most emphatic sort of a recognition that it, too, is to be reckoned with to the end. For they are being marshalled and massed for no other really practical purpose than to hold labor organizations responsible for the way they wield their great power.

But the trades unions have nothing [illegible] outside of their organization nearly so dangerous to it or their cause as the failure of their own members and officers to appreciate how responsible they are and will sternly be held to be for the use they make of the power they are considered to have. Will they rise together [illegible] civil and social trust [illegible] committed to them in their great constituencies? Will they accept and use it for the whole mass of wage-earners, more than for the exclusive benefit of their own minority membership? Will [illegible] the [illegible] quick [illegible] to violence and [illegible]? Can they be patient and confident enough to await the [illegible] which will keep pace with the [illegible] in every market? Will they have enough public spirit and patriotism [illegible] not only to [illegible] the quality and [illegible] of American industry, but as one of the strongest and best law-abiding [illegible] strictly accountable alike to the [illegible] and to public opinion?

This is the real and only [illegible] that organized [illegible] cope and will be loyal to its own [illegible] and true to the conscience of the [illegible].

# THREATENING WEATHER DID NOT KEEP GUESTS IN DOORS

More than 50 ladies braved the very uncertain weather of yesterday and attended the lawn party held by the officers and directors of the local branch of the Needlework Guild of America at the beautiful suburban residence of Mrs. William W. Williamson in Ivywild. Mrs. William E. Riddle, the president, and Miss Sarah Dorsey, vice president, received informally with Mrs. Williamson.

Very fortunately no rain fell between the hours appointed, from 3 until 6 o'clock in the afternoon, and the dust storm subsided. But, on account of the lowering skies, the tea table was set within doors instead of under the trees, as had been planned previously. Still, those in attendance strolled about the finely kept grounds, admiring the profusion of flowers, and at the urgent solicitation of the generous hostess, picking any which were fancied, until every one departed with a handful of beautiful blossoms.

Thousands of exquisite sweet peas, cosmos, roses, marigolds, goldenglow and other favorite flowers of the early autumn decked every room. In the center of the tea table was an immense bowl filled with pink and white sweet peas.

Mrs. R. F. Lowell presided at the tea urn. The young ladies assisting in passing were Miss Virginia Estill, Miss Madge Sill and Miss Curr.

# DONE IN PENCIL BY V. H. BAILEY

ORIGINAL OF STREET SCENE IN [illegible]

ARTIST MAY COME TO COLORADO SPRINGS NEXT SEASON.

An original drawing by Vernon Howe Bailey, the widely known artist, has just been framed at Foltz & Hardy's, and while on exhibition there yesterday attracted a great deal of attention.

The drawing is done in pencil and represents Wych street, Strand, showing the street and house in which Dick Turpin, the celebrated highwayman, lived for a number of years. Mr. Bailey's drawings reproduced in eastern magazines depicting scenes in Old Boston, Old Philadelphia, Old Cambridge, Old London, The Thames and Cathedrals, etc., have been attracting a great deal of attention in recent months and his work has been compared most favorably with that of Whistler and Joe Pennell.

It is possible that Mr. Bailey will come to Colorado next summer for several months and illustrate Colorado Springs, Denver, Albuquerque, Santa Fe, San Francisco and other western cities in a manner similar to that done in the east and abroad. Mr. Bailey has been doing a great deal of illustrating for the past two years in the "studio." At present he is at his home in New York.

The sewer system will be extended up Ute Pass and also Ute avenue, although it has not yet been decided when work will be commenced.

The building of the dam and adding to the sewer system was decided upon by the members of the town board at its last meeting.

Bectanus has been here since [illegible] day, making the Spaulding hotel his headquarters. Lately he received a letter from his wife stating that the $50 he had wired for had been sent him at Denver. He wired for an explanation and [illegible] that the manager of his store had received a telegraph order for $50 to be sent him and that the money had been sent and the receipt received from Denver.

Bectanus hurried to Denver yesterday to find out about it. He supposes some one else got hold of his name and wired for the money. He has some friends in Denver who may have played a joke on him, but he is not ready to laugh at the joke until he finds out who got the money. He expects to return to this city in a day or two.

# SUCCESSFUL SALE OF VAN BRIGGLE POTTERY

## A Thousand Dollar Stock of Van Briggle Ware on Sale This Week at a Discount of 25 to 50 Per Cent at Foltz & Hardy's.

The sale of Van Briggle pottery at Foltz & Hardy's this week is attracting unusual attention.

The firm, who are agents for Van Briggle ware, are authorized by the pottery to reduce prices from 25 to 50 per cent.

The sale has been so successful on Monday and Tuesday that it will be continued all week.

The collection on display at Foltz & Hardy's is varied and includes some of the finest examples of the ware that has been produced.

Residents of Colorado Springs will find this a favorable opportunity to secure a few good examples of Mr. Van Briggle's own designs for permanent preservation, as well as to get together a few good things for gifts to send away at about half the usual price.

Visitors in the city, who collect art things, should not let slip so good a chance to secure a piece of what is probably the best art ware made in America.

It is the belief of those whose opinion should have weight, that good examples of vases designed by Mr. Van Briggle, himself, will increase in value very materially within the next year. If this is true it would seem to be the part of wisdom to secure one or more good pieces at this time.

In any event it is an unusual opportunity to secure Van Briggle ware at about half the former price.

If the fame of this art pottery continues to spread as it has in the past few years, Colorado Springs may be known some time as the place where Van Briggle pottery is made.

Washington, D. C., are registered at the Antlers hotel.

Mr. and Mrs. H. Jerne, Miss Vera Jerne, Mrs. J. N. Van Nuys, Miss Van Nuys, J. Benton Van Nuys, Mrs. E. F. Edgar, Miss J. G. McKinney, Charles Rankin and John Rankin, of Los Angeles, are spending a few days at the Antlers.

# FORMER FRIENDS DEEPLY INTERESTED

MRS. KITTIE BAXTER'S LETTER HAS SET THEM TALKING ABOUT THE GAMBLER WHO DIED SEVEN YEARS AGO.

Ed. Baxter, the man who died in an opium den in Colorado City seven years ago, was very generally known in that city and his former friends have had their interest in him aroused by the article published in yesterday's Gazette telling of Mrs. Baxter's letter to Mayor Ellithorpe.

Baxter, as stated yesterday, resided with Mrs. Maggie Baxter, his wife, at Judge Smith's house, 421 Lincoln avenue. Mrs. Maggie Baxter and her eight-year-old child kept boarders in the same house for several months after Baxter's death and then left for parts unknown.

Mr. and Mrs. Frank Sparr, among others, boarded with them. No clew to any of the Baxter's can be found except the clew furnished by a letter from Mrs. Kittie Baxter, of Joplin, Mo., who it is supposed was Baxter's former wife.

# GOLD CAMP COUPLE SURPRISE FRIENDS

WERE MARRIED DAY AHEAD OF TIME WHEN THEIR SECRET LEAKED OUT—SPRINGS MAN TOOK OUT LICENSE.

Miss Gertrude M. Osborne and Mr. Edward S. Zell, of Cripple Creek, were married in the gold camp last night and surprised their friends.

William P. Skinner, of this city, got the license from the county clerk here and sent it to Mr. Zell in Cripple Creek yesterday morning. The wedding was scheduled to take place tonight, but friends of Mr. Zell and Miss Osborne learned of the surprise planned by the young people, and so the wedding was hurried that the friends might be surprised anyway.

When it was all over, Mr. Zell called his friend, Mr. Skinner, up by phone and told him all about it. Mr. Skinner was awakened at midnight last night and told of the wedding.

Mr. Zell is one of the best known young men of the district, where he has been in the assaying business for the past seven years. He is the son of J. Fred Zell, of Denver. Mrs. Zell is a sister of Mrs. Fred Brown, wife of the auditor of the Woods Investment company, at Victor, and has resided in that city for about the same time that Mr. Zell has lived in the district. She has a wide circle of friends.

## Residents of Hill Point Out Clerical Error.

WANT NEW BOULEVARD

[illegible] WILL [illegible] IN REQUEST TO GEN. PALMER TO CONSTRUCT ROAD.

The residents of Knob Hill and Cumberland Heights met last night at the home of Rev. W. G. Templeton, and decided to postpone further action on the matter of incorporation for two weeks. The residents of this district are firmly resolved to incorporate, but at the same time they wish to go slowly. The necessary 30 signatures have been secured and the petition to incorporate is ready to present to the county court.

It developed at the meeting last night that Knob Hill is an incorrect spelling of the name by which that section of the city is known. It should be spelled "Nob." The extra letter is ascribed to a clerical error in transcribing. It is probable that no other name than "Knob" will be adopted when this section incorporates, but the people want it to be spelled correctly from this time on.

Another feature of the meeting was the determination to ask General Palmer to build a road extending south from the present Austin Bluffs boulevard, along the city line to Pike's Peak avenue. The cost would not be great and a road so constructed would [illegible] of the district. The scenery from such a point of vantage is magnificent, and the Hillites feel that a road built for this purpose would be in line with General Palmer's policy to construct roads for scenic purposes in various parts of the city and suburbs.

M. Jones, of the Pike's Peak Power company, of Victor, case was set for September 30. John Holman, who is alleged to have forged a check in Anaconda last April, had his case set for October 1, while J. F. The above three alleged criminals are the only ones now in the county jail, with the exception of those charged in connection with the Independence explosion and Victor rioting cases of June 6.

Joe Castel, a well-known miner of the district, has tried to forge several checks and drafts on local business men. The manager of the National hotel was duped for a draft of $25, while several other local saloon men were held up for checks ranging from $5 to $25.

The affairs were reported to the local police forces early this morning, when word was sent to the police of Denver, Colorado Springs, Colorado City, and Pueblo. EDWARD M. SHEPHERD.

... science of Judge Mullins is not so tender that it will pre- vent him from associating with a Democratic machine which stuffs ballot boxes and returns ... by thousands.

The most remarkable feature of the rich, new vest- ments in which John Alexander Dowie has seen fit to decorate himself is that the hundreds of poor, deluded Zionites should feel it an honor and a privilege to pay the bills. Many of them are poor unto poverty, but they cheerfully join in paying for the gold and purple and fine linen in which the fat freak bedecks himself.

If Mr. John Pierpont Morgan sends back the sacred cope which he purchased, the question is, who will pay him his $50,000? Or will he charge it up to experience?

William L. Douglas, the shoe man, says he is ready to run for governor of Massachusetts. The newspapers won't find it difficult to get a portrait of William.

Reports of the campaign in the middle west show that the Democratic party is chained as completely to the silver corpse as it was in 1896 or in 1900.

President Roosevelt has convinced the country of his honesty, courage and capacity. His opponent is still an unknown quantity.

To President Sexton, who sends out baseball percent- ages: "It may be as you say, but we doubt it."

### A HEALTHY MIND.

"Our average fellow-citizen is a sane and healthy man, who believes in decency and has a wholesome mind. He therefore feels an equal scorn alike for the man of wealth guilty of the mean and base spirit of arrogance toward those who are less well off, and for the man of small means who in his turn either feels or seeks to excite in others the feeling of mean and base envy for those who are better off."—(President Roosevelt at Syracuse, N. Y., Sept. 7, 1903.

### NO DUDE NOR TENDERFOOT.

Edmund Seymour, a Wall street banker, is fond of telling how on one occasion he met Theodore Roosevelt without knowing who he was. Mr. Seymour was out in Wyo- ming years ago for his health, living on his ranch. One evening he rode to the nearest railroad station and asked for a room in the only hotel. He was informed that every bed was doubly occupied except one, and in that there was a man asleep. "But that's all right," said the landlord; "he knows that he may have to share his bed." Mr. Sey- mour turned in with the stranger, who hardly noticed his arrival. Next morning the banker found that his bed- fellow was gone. On asking who the man was the land- lord said: "I don't know much about him except that he's a cowman, and his name's Theodore Roosevelt, and he ain't no dude nor tenderfoot, you can bet on that."—(Omaha Bee.

Mr. Heartz, an American composer of much prominence on account of his successes, "Miss Simplicity," presented by Frank Daniels for the past two sea- sons, "1492," "The Show Girl," "Jack and the Beanstalk," and other popular achievements is credited with a most original score that contains Mexican, Spanish, Chinese and Indian motives in great elegance and variety.

A superior production both in scenic equipment and wardrobe is promised and a large and talented company with a setting of pretty girls is among the attractions offered.

Sure Relief for Women.

No. ... Central Ave., Hot Springs, Ark., April 26, 1903.

Eighteen months ago I was so completely run down that my body ached from head to foot. My back seemed to break in two and I suffered intense pain in the lower abdomen. I could not afford to lay off and take a rest, and ... ... ... ...

A friend told me how much Wine of Cardui built her up and advised me by all means to take it. The day I took the first dose the recovery of my health began. It was nearly three months before I was entirely cured, but at the end of that time I was in better health than I had been for ... years. I look on Wine of Cardui as the most blessed medicine that a woman could possibly take when she feels sick and tired of life.

Anna Nelson

Orator, Wednesday Chautauqua Club.

WINE OF CARDUI

Mrs. Nelson describes the condition of thousands of women. That con- dition comes by slow stages. Usually the important function of menstruation is at first slightly irregular. Then comes the painful periods. Bearing-down pains and ovarian inflammation follow. Finally the nervous system gives way and the whole system has become affected and the pains rack the body from head to foot.

Wine of Cardui is a menstrual regulator of established reputation. No ... ... suffers as Mrs. Nelson suffered. It gives speedy and com- plete relief from the torturing menstrual agonies which are making so many women invalids today. Do not let yourself come to the pitiable condition Mrs. Nelson describes.

Secure a bottle of Wine of Cardui from your druggist today and begin treatment immediately.

# ELECTRIC LIGHT MEN BEGIN SECOND SESSION HERE TODAY

## Three Days of Instructive Meetings With a Sandwich of Sightseeing and Round of Social Activity.

The second annual convention of the Colorado Electric Light, Power and Railway association will convene in the sun parlors of the Antlers this morning at 10 o'clock. The convention will continue for three days, and additional meetings will be held at 10 a. m. and 2 p. m. tomorrow and Friday.

Following the completion of routine business such as the reading of the minutes of the last annual meeting and the presentation of reports by the various officers and committees, a number of papers will be read by members of the association. Among those to be presented during the convention are "Notes on Induction Integrating Wattmeters and Their Use," by A. A. Serva; "The Curtis Steam Turbine," by F. J. Brown; "Commercial Testing of Transformers," by G. W. Humphrey; "Modern Large Gas Engines, With Particular Regard to Their Suitability to Central Stations," by H. Woolfender; "Electric Track Switches for Street Railway Work," by W. G. Matthews; "Lightning Arresters," by J. E. V. Titus, and "A Description of the Power Plants In and Adjacent to Colorado Springs," by E. P. Dillon.

The paper to be presented by F. J. Brown will be read on Thursday at the science hall, Colorado college; all the others will be delivered at the Antlers.

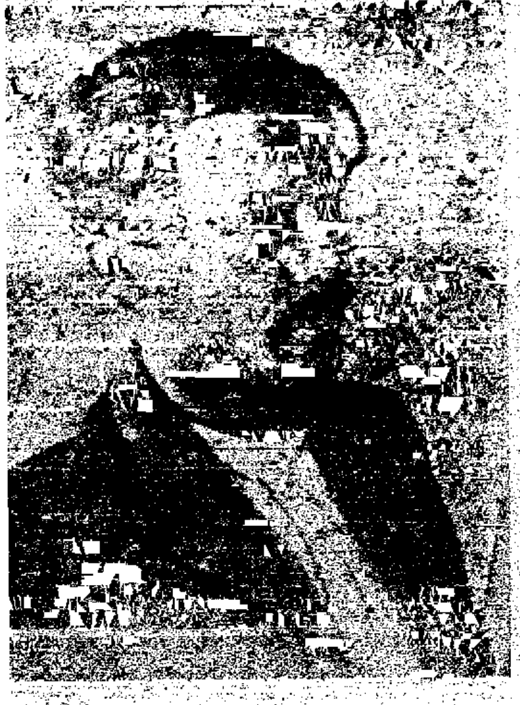

Although organized but two years, the association already has a large membership, which is steadily growing. Its purpose is to advance electrical work throughout the state and promote social intercourse among electricians. About 75 members are expected to attend the convention.

The delegates and their friends will attend the performance of "The Tenderfoot" this evening and tomorrow a special train will carry them on a visit of inspection to the power plant. Trips will also be made to the lignite coal mining district and the hydro-electric plant in Manitou.

The officers of the association are J. F. Vail, president, Pueblo; William Mayhew, vice president, Greeley; George H. Gripp, secretary and treasurer, Colorado Springs.

Duff and Crawford were arrested yesterday by Marshal George Birdsall of Colorado City, in whose hands, as a deputy sheriff, were placed the capiases issued by the district clerk. The case, it is understood, will be set for trial next Friday.

He was followed by Mrs. Dwinell and Mrs. Ingersoll, who spoke on the World's fair and their experience while in St. Louis.

# WIDOW FILES SUIT AGAINST RAILROAD

CORNELIA MARTIN SAYS EMPLOYE AT SANTA FE YARDS WAS RESPONSIBLE FOR HER HUSBAND'S DEATH.

A suit for damages for the death of her husband was filed in the district court yesterday by Cornelia Martin against the Atchison, Topeka and Santa Fe railway.

George E. Martin, who was a stationary engineer employed in the local Santa Fe yards, was killed August 8, 1903, according to the complaint, and his death, it is alleged, was due to the negligence of the railway in having a hydrant so situated in the yards that while Martin was transferring a long piece of timber from one place to another on the switch engine the end of the timber struck the hydrant and threw him under the engine. Damages in the sum of $7,000 are asked.

# VOTERS ARE URGED TO REGISTER NOW

ONLY 50 NAMES WERE ADDED TO LISTS YESTERDAY, WHICH OFFICIALS SAY IS NOT ENOUGH.

Registration progressed slowly at the county clerk's office yesterday.

About 50 names were added to the rolls, but this is much less than is necessary if a crush is to be avoided just before election time.

Despite repeated announcements that vouchers are necessary, persons still go to the office to get registered without being accompanied by the necessary two registered voters.

The public is asked to get this one thought in mind in regard to registration: It is absolutely necessary for every unregistered person to have with him or her two registered voters who can vouch that he or she is entitled to be registered as an eligible voter in a certain precinct.

# LIGHTNING FLASH FIGURES IN TRIAL

PROPRIETOR OF STORE SAYS IT CAUSED HIM TO DETECT IDENTITY OF BURGLAR—CLEMENTS ON TRIAL.

Jeff Clements was put on trial yesterday for the burglary of the Bowers grocery store on East Cache la Poudre street several weeks ago.

It was a hard fought case. Nothing was stolen from the store. H. C. Bowers, the proprietor, testified to having seen Clements by the side of the store building just after the burglar had jumped out of the window. He saw his face by the light of a lightning flash.

Footprints were traced from Bowers' store to Clements' house, according to the officers who testified.

For the defense, Clements' brother, mother, brother-in-law and wife were the only witnesses. They testified that Clements was in the house that evening. The case went to the jury at 5 o'clock.

The jury deliberated long enough to go out for supper and soon after being returned to the court house notified the court that a verdict of not guilty had been reached.

In Praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"Allow me to give you a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mr. John Hamlett, of Eagle Pass, Tex. "I suffered one week with bowel trouble and took all kinds of medicine without getting any relief, when my friend, Mr. C. Johnson, a merchant here, advised me to take this remedy. After taking one dose I felt greatly relieved and when I had taken the third dose was entirely cured. I thank you from the bottom of my heart for putting this great remedy in the hands of mankind." THE WORLD MOVES
and Dr. Siegel has moved with it and to Colorado Springs. Wonderful cures are effected in these days of modern surgery and medicine by the manipulation of the hands. A drug-cursed world has risen to bless Dr. Dowie, the great Austrian physician who has shown the knights of the knife a better way to heal. Dr. F. A. Siegel has come to Colorado Springs from Chicago, provided by the highest testimonials from well-known physicians and grateful people his science has cured.
Dr. Siegel has had many years experience in treating all kinds of chronic and nervous diseases. He is here to stay as long as his science can be of use to the people of Colorado Springs, and has opened offices at 529 N. Weber St., corner Willamette.
His numerous letters of recommendation include one by Dr. E. C. Spaulding, of Denver, who unreservedly recommends him to the people of Colorado Springs.
Dr. Siegel uses no drugs. He belongs to that school of practitioners of which Dr. Dorenz is the distinguished head. Knowing the human anatomy, he ... moulds it into natural form. Have you nervous prostration? Are you afflicted with sore eyes, weak eyes or neuralgia?
Have you STOMACH TROUBLE, HEART DISEASE, APPENDICITIS, KIDNEY or SPINAL TROUBLE? If so, throw away the drugs which have done you no good and have only aggravated your troubles and call on

### SHIRT WAISTS AT ST. LOUIS.

A correspondent of Harper's Weekly, presumably a young college man, complains bitterly to that paper of the ... of President Francis denying the right of admission to the World's fair grounds at St. Louis to men in shirt-sleeves. The collegian, he says, is addicted to the shirt-waist, and the only time he can go to the fair is in July and August and early September—the months in which St. Louis is simply "boiling over." The correspondent complains that the gentlemen from the Ozarks, with coats but no neckties, and their shirt fronts liberally spangled with tobacco juice, are admitted without protest, but the man in polished shoes, creased trousers, collar, tie and immaculate shirt waist must stay out. This interdiction of the shirt waist, thinks the Weekly's correspondent, will decidedly limit the attendance of the collegian.

# WRECKED BY OVER STUDY

MANY WOMEN ASPIRANTS FOR POSITIONS ARE WRECKED BY OVERSTUDY—ENORMOUS COST OF CLOTHES.

New York, Sept. 20.—Seven per cent of the girl graduates of training schools in this city who qualify to become teachers in the public schools are found to be suffering from practically incurable ailments as a result of too heavy a course of study. Dr. Elizabeth Jarrett, medical examiner for the board of education, is authority for this statement.

"One hundred and fifty of the 600 girls sent to me for physical examination this spring had to be held over for re-examination this fall because they were found to have some form of heart trouble, incipient kidney disease or anaemia," said Dr. Jarrett today. "These are not inherited diseases. Many of them, as examinations have proved, have been brought on by the nervous tax of three mental examinations—the state superintendent's, the city superintendent's and training school superintendent's—which they must pass in order to obtain a teacher's certificate.

"When I say that 7 per cent of the girls turned out of training schools have become incurably diseased," said Dr. Jarrett, "I speak conservatively. I [illegible] cases of Bright's disease, severe heart disease, decided spinal curvature, some tuberculosis and [illegible] of nature. Some of these girls come back for several years to be examined over again in the hope of improvement, but usually we find the same thing. It was the school work that sent them on the downward path of disease. They were placed under a pressure of work such as no girl of 18 should undergo, such a strain as comes upon a business man of 40.

"Many of the girls tell me that during the last year of their course they sat up until 12 o'clock every night. No career is worth that, and there is no need for such strain."

[illegible] New York woman who spends her entire time simply designing on paper new creations for the gowns of lovely American womanhood, was asked today if the statement made in the dressmakers' convention that some women spent as much as $[illegible] on their clothes in a year was an exaggeration.

"That is merely a fair average," she said. "[illegible] figure named is very conservative. Mrs. John Jacob Astor, I think, is admitted to be the best dressed woman in New York. I am certain that she spends all of $50,000 a year on her dresses.

"Mrs. Cornelius Vanderbilt is a close second. Her dressmaking bill certainly runs over $40,000, while Mrs. Stuyvesant Fish and Mrs. Joseph Widener, for instance, are in a big class that easily part their husbands from upward of $[illegible] each year for the benefit of the dressmakers, shoemakers, glovers, etc."

## COLLEGE ATHLETICS.

Shall They Be Endowed? Is the Question President Harper Tries to Answer.

If college athletics were endowed, and the same precautions taken in reference to the expenditure of money which [illegible] other departments, the annual cost of athletics would be greatly reduced. Some believe that this saving would amount to 50 per cent of the total sum expended. No one doubts that the saving would be considerable. This statement does not imply that at present there is any gross mismanagement. It means simply that with the elimination of certain rivalries, the strict control of expenses, the more definite knowledge of resources, a real improvement could be effected in the financial administration of the work. When it is recalled that the amount now expended in the case of single institutions ranges from $[illegible] a year to more than $[illegible], it can easily be understood that, at all events, there is a field for the practice of economy.

It is contended, moreover, that this policy would remove a large measure of that element in college athletics that is now recognized as illegitimate. That this element exists, in the east as well as in the west, no one can doubt, after the recent disclosures in connection with the difficulties at Brown university. The adoption of this new policy, many believe, would take away the motive for encouraging this illegitimate side of college athletics. The rivalry between institutions would be less intense. The contests would be lifted to a higher level. The sport would become in a true sense a gentleman's sport. The necessity of securing large returns from games and certain unpleasant features fostered by the athletic management for the sake of financial success would no longer exist. In brief, the character of the game would be transformed.—[William R. Harper, president of the University of Chicago, in Harper's Weekly.

# THE TEST OF POPULARITY

For many years it has been understood among advertisers that the test of a paper's popularity with the people was found in its want columns. The paper of the greatest circulation carries the greatest number of want advertisements.

Why? Simply because the people get results. They get the results because the paper of largest circulation is read by more people than any other.

For this reason the Gazette "points with pride" to its splendid want page. Every day in the week, every week in the month and every month in the year it averages nearly 50 per cent more want advertisments than all other papers in El Paso county combined.

## IT IS A GREAT SHOWING

Hence it is clear that every person desiring to advertise in the want columns of Colorado Springs newspapers must use the Gazette to get the results. Many advertisers have already found this out. They use the Gazette regularly and constantly because they find that it pays to do it.

These small ads have often started a firm to weath and prominence. A small announcement that may appear insignificant to some people may be the beginning of a collossal enterprise. They are the advertisers stepping stones and when the proper people and material are behind them represent a speculative investment very remunerative and a valuable assistance to larger and greater things.

The rates are reasonable. It is easy to remember them.

## Five Cents Per Line Per Day, or Twenty-Five Cents Per Line Per Week

The Gazette carries more want ads than the Denver Republican.

More want ads than the Pueblo Chieftain.

More want ads than any other local paper by 50 per cent.
